## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I. Claim 1, drawn to a protein comprising an amino acid sequence from SEQ ID NOs: 1-10; classified in class 530, subclass 350, 300.

Should Group I be elected, applicants are required to select one amino acid sequence from claim 1.

Group II. Claims 2-6 drawn to a DNA sequence encoding a protein of claim 1, wherein said nucleic acid sequence comprises a sequence from SEQ ID NOs: 11-20, 21, 23, 25, 27, 29, 31, 33, 35, 37 and 39, an expression vector, host cell transformed with said vector; classified in class 536, subclass 23.1, 23.5; class 435, subclass 69.1, 320.1, 252.3.

Should Group II be elected, applicants are required to select one nucleic acid sequence listed in claims 3 and 4.

The claims of these groups are directed to different inventions, which are not linked to form a single general concept. The claims in the different groups do not have in common the same or corresponding technical features. In particular, each group is directed to distinct chemical entities, which use different materials and produce different effects. The protein of

Art Unit: 1653

Group I, DNA of Group II, each is defined by a sequence of amino acids and nucleotides that are independent and/or patentably distinct one from the other. Accordingly, the claims are not so linked by a special technical feature within the meaning of PCT Rule 13.2 so as to form a single inventive concept and lack of unity is deemed proper.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicants are advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
